2. The Unit Owner and/or tenant must obtain the written approval of the Board of Trustees prior to allowing the customary household pet to be maintained in the residence of the Unit Owner and/or tenant. (Requests for approvals are accomplished by fully completing and submitting a "Pet Approval Request Form" – see attached.)
3. No pets shall be allowed on the premises and no permission shall be granted for the same until the Unit Owner's Pet Request is approved by the Board of Trustees. cat, dog, gerbil or hamster. Other animals such as monkeys and snakes are generally not considered pets and are usually not allowed.

4. The maximum number of Pets allowed is three (3) per unit. Pets shall not interfere with the quiet enjoyment of the condominium by its residents.

Unit Owners must not allow their pet to urinate or defecate in any of the "Courtyard" landscaped areas.
8. Each unit owner keeping such a pet which violates any of the pet rules outlined herein or permits any damage to or soiling of any of the common elements or permits any nuisance or unreasonable disturbance shall:

10. No pets shall be raised for commercial and/or breeding purposes.
11. In the case of rentals, Unit Owners shall be responsible for ensuring that their tenant(s) obey the Pet Policies.
12. These Rules also apply to "visiting pets".

#### ***F. TRASH COLLECTION AND RECYCLING***

---

Dumpsters are picked up two (2) times per week by the Town of Chelmsford's contractor. Trash should be placed in **sealed** plastic bags to deter pests and rodents and to reduce odors. All trash bags and any other trash **should be placed in the dumpster container and not left on the ground or around the dumpster or outside of the dumpster shed**. Please break down empty boxes to conserve space in the recycling bins and these boxes should also be placed inside the recycling bin. If your dumpster or recycling bin is too full, please place your trash in another one that is not.

**No large items can be left outside the dumpster areas, i.e. furniture items, mattresses, box springs, washers and dryers, tires, and other items that will not fit in the dumpsters.** If you have appliances or large items (i.e. couches or other furniture) to dispose of, you may call the Town of Chelmsford to arrange disposal of the large items.

The Association is charged for items left outside the dumpster areas. The owner is responsible for the removal of bulk items.

The Courtyard does have a recycling plan under the Town of Chelmsford's trash contract. Recycling bins are located adjacent to the dumpster enclosures. Recycling is collected every other week. **Please.....**

- ...do not place or leave any recycling outside of these recycling bins.
- ...make sure that you are breaking down any boxes you are putting in the recycling bins. **If you are found continuously be found not breaking down boxes, and those boxes are repeatedly linked to your unit, your unit could be subject to fines of up to \$25.00 per offense.**
- ...remember that you should not be putting your recyclables in plastic bags and disposing of them while still in those bags.
- ...help us avoid having to implement fines or having additional costs to remove improper items.

Further information on recycling is sent out annually to all residents from the Town of Chelmsford.

## **G. LONG-TERM PARKING (winter months)**

---

Understanding that some residents' work requires extended travel during the winter months, the Board of Trustees has designated a long-term parking area adjacent to the dumpster between the Camden and Hawthorne Buildings for the winter months. Prior to departure, please notify **BRIGS** in writing with the make of vehicle, model, license plate number and estimated length of time the vehicle will be parked in this location. Approval is granted on a first come, first served basis.

## **H. SNOW REMOVAL AND WINTER PARKING RULES**

---

A contractor is hired each year to perform snow removal. Every snowstorm is different, but generally speaking, plowing starts at approximately 2". In order to facilitate the snow removal process, **it is very important that all residents plan to move their cars to cleared parking spaces to the extent possible.** Every effort will be made to keep roads and parking areas clear and passable throughout a snowstorm. Sanding will be done as needed to provide as much traction as possible. Snow stakes are placed throughout the property to minimize the amount of property damage which may result from plowing during a snowstorm. Broken or fallen stakes should be reported to the Property Manager. The snow removal contractor will shovel walks as well. Ice melt and sand may be used sparingly when ice is present.

The Board of Trustees and BRIGS will do their best to ensure that the contractor's snow removal process is completed in an effective and timely manner. How effective they are is often times directly related to the amount of cooperation given by the residents in moving their vehicles.

**Objective:** to provide a systematic process for removal of vehicles from parking areas to allow snow removal of roadways and parking areas in an efficient and safe manner.

1. It is the responsibility of all owners/residents to move or arrange to have their vehicle(s) moved when called upon to do so by the snow removal contractor. *This may be interpreted as when the snow removal contractor is on site removing snow, even when you don't hear their horn, and even on weekends and holidays!* As a rule of thumb, the contractor will start working on parking spaces very close to the end of a storm.
2. Failure to move a vehicle or to make arrangements for its removal will result in the removal of the vehicle by a tow truck at the owner's expense and/or fines.
3. Owners/residents who will be absent from the complex must inform the Management Company of their arrangement to have vehicle(s) removed prior to their departure.

### **SNOW REMOVAL PROCEDURE:**

1. During each storm and prior to 6:00 AM, the snow removal contractor will commence plowing of roadways and parking areas when accumulation is between 2" - 3". The contractor will clear these areas to the greatest extent possible to keep roadways accessible until the storm passes.
2. After the storm has ended, parking lots, driveways and walkways will be cleared to their full width generally between 8:00 AM and 4:00 PM.
3. The contractor will sound a horn alerting residents that they are on the property and advising residents to move their vehicles for cleanup.

#### **RESIDENTS SHOULD CLEAR ALL SNOW OFF THEIR VEHICLE(S) BEFORE MOVING THE VEHICLE(S).**

4. Vehicle(s) need to be moved in the parking lots as follows:
  - a. Parking area adjacent to Appleton and Franklin Buildings (by the Elks Lodge).
  - b. Parking area between Devonshire and Exeter Buildings (center road area between Phase I & II).
  - c. Parking areas in front of the Clubhouse and Baxter Buildings (front entrance area).
  - d. Parking areas by Greenwood and Hawthorne (rear and right rear side of complex)
5. Residents are asked not to direct snow removal personnel. If you are experiencing any problems with the snow removal job, please contact BRIGS at (978) 341-3424.

After each snowstorm, all unit owners with a second-floor balcony are required to shovel their second-floor balcony and we recommend it is done with a plastic shovel within 24 hours of a storm ending. The weight that builds from each snowfall is tremendous, may weaken the second-floor balcony supports which subsequently cause the balconies to require structural maintenance, and contributes to the property's ice dam problem. The snow melting off of second-floor balconies also contributes to ice buildup on the entry ways and walkways below, which is a slip/fall safety hazard!

Please remind children not to throw snow in cleared areas, such as sidewalks, and parking lots and roadways.

Finally, we would like to remind you that a typical condition, of New England winters, is that weather changes very quickly. Temperatures can rise and fall quickly, causing sudden icy conditions to develop. All residents and guests are strongly advised that they have a responsibility to use extreme caution at all times when walking on any of the walks and parking lots within the property during the winter season. The Courtyard Condominium Association, it's Board of Trustees and BRIGS will not be held liable for injuries that occur as a result of weather conditions. Your anticipated caution is greatly appreciated!

#### **GUEST PARKING:**

If an owner/resident has guests, please inform them that there is ample parking available around all of the buildings on the complex. PLEASE DO NOT ALLOW THEM TO PARK IN NO PARKING ZONES in the complex, instead inform them of all the free spaces made available for guest parking. Parking spaces that are numbered are **assigned** spaces to be used by unit owners that have been assigned that space. All other un-numbered parking spaces may be used by other vehicles.

#### ***I. COLD WEATHER PRECAUTIONS***

---

##### **If a unit will be vacant for over 24 hours:**

- **DO NOT TURN OFF HEAT - LEAVE AT LEAST AT 55 DEGREE SETTING**
- Open all water faucets to prevent freezing pipes.
- Close washing machine valves.

##### **If leaving for an extended period:**

- Have a knowledgeable plumber winterize the unit, including adding anti-freeze to toilet and sink traps.
- Do not shut off electricity.
- If possible, have someone check on the unit periodically.
- Make sure the association (through BRIGS) has a copy of your unit key. This is especially important if you know it's been changed since the original key was issued.
- Make sure there's emergency contact info listed for you on your emergency contact form, hopefully someone that can come to your unit's aid and make decisions in the event of a problem.

Hopefully, by being mindful of a few simple things, we can prevent the type of losses that hurt our association financially, cause our insurance policy to be jeopardized or cancelled, and most importantly cause stress and grief to our homeowners.

## **J. MAINTENANCE**

---

**The Courtyard is responsible for the repair and upkeep of the common areas of the Courtyard. This is generally accomplished by on-site maintenance employees, other employees of the Management Company or contractors. If you wish to make a service request for a common area problem, please submit that request to BRIGS:**

you can submit it yourself through [www.portal.brigsllc.com](http://www.portal.brigsllc.com)

## **K. SALE OF A UNIT**

---

The seller of a condominium is generally required to provide the following:

1. 6(d) Certificate

This is a document which certifies that all common fees are paid in full as of a certain date, usually the last day of the month in which the closing falls.

\*Note that a 6(d) certificate can take up to ten (10) days to be issued. If it is required in less than ten (10) days you will need to request and pay for a "Rush Order" to expedite the process; otherwise, it will be delivered by USPS first class mail.

2. Smoke Detector Certificate

This document certifies that there is/are working smoke detectors in the condominium being sold. The Fire Department performs the inspection and issues the certificates.

3. Certificate of Insurance

This document certifies the amount of insurance coverage provided by the master insurance policy. The prospective seller must contact the insurance agent directly to obtain the Certificate of Insurance. Information regarding the current insurance agent at The Courtyard can be found in the Insurance section of this handbook.

All the above-listed documents are now available at [www.portal.brigsllc.com](http://www.portal.brigsllc.com).

All governing documents are now available on the [www.portal.brigsllc.com](http://www.portal.brigsllc.com) to download for free.

## **L. AIR CONDITIONER CARE**

---

During the winter months, plan to cover your air conditioning compressor unit with a plywood or similar cover on top of the unit to prevent the grill from collapsing under the weight of snow. Also, loosely tie a tarp over or using a cover designed for the A/C unit could keep the sides away from ice and snow damage. It is the unit owner's responsibility to protect and replace any damaged unit. Air conditioners should have yearly scheduled maintenance to ensure they are operating properly and will not cause damage to common areas (i.e. drain hoses cleaned annually).

## **M. COPY OF UNIT KEY(S)**

---

A copy of your unit (Basement Storage [Phase I] and Utility Storage Room, if different) key(s) must be furnished to the Trustees (care of the management company) to facilitate entrance into your unit in case of an emergency when no owner is available. If any locks are changed, a copy of the key(s) should then be furnished to the Trustees. Any damage due to an emergency forced entrance shall be charged to the owner.

## ***N. ALARM SYSTEM INFO***

---

All buildings and units are wired with smoke detectors, fire alarms and sprinklers that should be in good working order. No unit owner should tamper with any of these systems at any time. A panel in the Clubhouse, as well as an alarm siren outside of each building, may indicate any problems or malfunction of these systems and will alert the proper personnel such as Alarm Company, Management Company, Fire Department, etc.

## ***O. WATER USAGE***

---

The water usage at the Courtyard is a shared bill that all owners/residents pay for in their monthly condominium fee. Please be sure that any water leaks, such as leaking faucets, running toilets, etc., are repaired and taken care of to minimize our water usage. A reminder that car washing on the property is strictly forbidden.

## ***P. CLUBHOUSE BULLETIN BOARD***

---

A bulletin board has been provided in the Clubhouse. Please check it frequently for any important messages and notices from the Trustees and Management Company.

## ***Q. BUDGET***

---

A copy of the budget is provided to every owner by the management company on an annual basis. It is also available on the website. If further information is needed, please contact the managing agent.

## ***R. SCHOOL BUS PICK UP AND DROP OFF***

---

School buses will pick up and drop off school children at the entry of the property off of Route 110. The school buses will enter the property to pick up and drop off the younger school age children. The pick-up and drop-off times are announced in the local newspaper at the beginning of the school year or may be obtained by calling the appropriate school.

## ***S. GAS GRILLS***

---

Homeowners in Phase I are reminded that the Town of Chelmsford **prohibits the storage or use of gas grills with propane tanks on second-floor balcony decks**. Per statement previously provided by Chelmsford Fire, "Grills are to be 10 feet from the building. No propane tanks or gas grills are allowed ground level on second floor balcony decks. Propane tanks are to be stored 10 feet from any ignition sources (air conditioners, electrical outlets, etc.), 5 feet from any openings such as doors or windows, and 5 feet from any sidewalks or paths of egress for residents." Please note that many of these items do apply to first floor and townhouse units. Electric grills are allowed at the property without restrictions. The condominium Association is subject to fines from the Town for violations of this rule.

## ***T. FRONT DOOR AND STORM DOOR CARE AND DESIGN***

---

The painting of street front doors is the responsibility of the Association. A budget has been set up to take care of this expense. On the other hand, storm door installation, care and maintenance are the responsibility of the owner/resident.

In response to homeowner interest in installing replacement storm doors, the Board of Trustees has approved several options for storm doors at the Courtyard. In making this decision, the Board considered the need to preserve the aesthetic quality and consistency of the exterior of the buildings and the interests of individual homeowners who prefer the additional light provided by a full lite storm door. The model selected as a second option is manufactured by the same company as the original approved door assuring consistent quality.

Although less expensive options were available, the Board felt that they were "flimsy" and would detract from the appearance of the property. In addition, it was felt that the approved full lite door would not look substantially different from those entrances with no storm door and was similar in appearance to existing patio doors.

Some homeowners have also requested replacement of sliding doors. Please find below options for replacing sliding patio doors at the property.

---

No repairing or maintenance of vehicles is allowed on the property. Any gas or oil leaks or stains occurring on the parking surface by a resident's vehicle are the responsibility of that resident. Any costs incurred in cleaning up these leaks or stains will also be the responsibility of the resident.

***V. SPEED LIMIT ON PROPERTY***

---

A speed limit of 10 MPH has been put in place at the Courtyard. All vehicle drivers should strictly adhere to this rule. With a large pedestrian population at the Courtyard, caution and care should be practiced while driving in and around the property. Violators will be reported and subject to fines by the Board of Trustees.

## IV. INSURANCE

### **A. MASTER INSURANCE POLICY**

---

All structures within the Condominium are insured under a multi-peril policy. The following additional liability coverage is in effect: Comprehensive, Umbrella, Directors & Officers & Fidelity. Coverages and Policies are reviewed and updated annually.

### **B. INSURANCE LOSSES**

---

Master Policy deductible: \$10,000 per occurrence and \$10,000 per unit for ice damming claims. Claim payments due unit owners under the Master Policy will be made through the Management Company less the appropriate deductible. Affected unit owners will be responsible for paying the deductible.

Losses less than the master policy deductible amount affecting individual units will not be covered by the Condominium's insurance policy. As a result, individual unit owners bear the total responsibility for such a loss. In order to eliminate the deductible amount, unit owners should obtain two additional endorsements to their H06 policy.

1. Loss Assessment Coverage
2. Additions and Alterations Coverage

The total additional cost for the above two endorsements is not expensive. All owners carry an equal responsibility to insure fully all improvements, fixtures and alterations that have been added and to carry Public Liability insurance for accidents within their own units. There may be advantages in arranging this personal coverage through the same Agent who handles the Association's Master Policy, but it is not mandatory to do so.

Responsibility for handling of claims will differ according to the location of the damages:

**1. Damage only to outside of building or any part of common property:**

Responsibility belongs only to the Trust and involves the Trust's Master Policy.

**2. Damage involving only the inside of a residential unit:**

The current Master insurance coverage allows for the restoration of the original unit structure, i.e., walls, floors, ceilings, and original fixtures such as cabinets and appliances.

An accurate list of improvements and their values should be filed with your insurance agent, as the unit owner will be responsible for improvements and personal belongings. When purchasing a homeowner's policy, please have your agent refer to the Condominium Documents and Master Policy to provide you with proper coverage.

**3. Damage involving both outside and inside of a residential unit:**

The responsibility here will be shared by both the Trust and the Unit owner(s), i.e., the Trust for damage to the original structure, the unit owner(s) for damage to the "improvements", interior decoration and contents.

The above information concerning Master Insurance Policy and Insurance losses is meant to serve as a guide only. Each individual insurance loss must be evaluated individually by the insurance agent to determine the responsible parties and amount of coverage. Also, please refer to your condominium documents for specific information concerning Boundaries of Units, Common Area and Insurance.

### **C. INSURANCE AGENT**

---

1. The Courtyard Condominium's current insurance agent is:  
Hub International Insurance Agency  
299 Ballardvale Street  
Wilmington, MA 01887  
(978) 661-6628
2. Certificates of Insurance must be obtained by contacting the current insurance agency directly. You can email [condocerts@hubinternational.com](mailto:condocerts@hubinternational.com) to request a certificate.

### **D. INSURANCE CLAIM PROCEDURES**

---

In the event your unit should suffer damage in which you will be filing a claim, the following conditions and procedures must be followed:

Insurance Deductible – The Courtyard carries a \$25,000 deductible (per claim) on its Master Policy for water-related claims and a \$25,000 deductible (per claim) for other perils. Each homeowner is responsible to cover these amounts.

Master Policy Coverage – The Master Policy will only cover the replacement of original equipment in each unit less the deductible. This includes flooring, material and cabinets. Upgrades, personal property and the deductible must be covered under your individual policy.

#### **WHEN AN ACCIDENT OCCURS (Interior of your home)**

1. Determine whether damage is in excess of the master policy deductible. If it is minor damage, contact your homeowner's insurance policy company directly.
2. If damage appears to exceed the deductible amount you should notify both your insurance company and BRIGS, who will notify the Association's insurance agent.
3. You then will have to procure bids from appropriate contractors to repair your unit. These quotes are to be submitted to BRIGS for approval by the Association's insurance company.
4. During this process, each insurance company may send an adjuster, if necessary, to verify the extent of damage and determine the dollar amounts they will settle on. Remember, the insurance companies may not agree with the quotes submitted by your contractor. Each insurance company may require additional quotes, if this is the case. (Similar procedure to procuring bids on auto insurance damage claims.)
5. In all cases, the Association will only release funds equal to what they receive in settlement from the Association's insurance company minus any expenses incurred by the Association as a result of the accident. All additional expenses will be borne by the homeowner or their insurance company.
6. Coordination of work scheduling within your home shall be the responsibility of each homeowner.

NOTE: Damage to the exterior of your unit shall be promptly reported to BRIGS in all cases.  
If you are unsure as to where responsibility lies, please call BRIGS for clarification.

### **23. RULE - SATELLITE DISHES AND ANTENNA RESTRICTIONS:**

Notwithstanding any provision of the Master Deed, Declaration of Trust, and/or Rules and Regulations of the Association, the following Rules and Regulations regarding satellite dishes and antenna restrictions shall take precedent over the same:

1. Reception Antenna means an antenna, satellite dish, or other structure used to receive video programming services intended for reception in the viewing area. Examples of video programming services include direct broadcast satellite services, multipoint distribution services, and television broadcast signals. The mast supporting the Reception Antenna, cabling, supports, guide wires, conduits, wiring, fasteners, bolts or other accessories for the Reception Antenna or similar structure is part of the Reception Antenna. A Reception Antenna that has limited transmission capability designed for the viewer to select or use video programming is a Reception Antenna provided that it meets Federal Communications Commission ("FCC") standards for radio frequency radiation. Structures similar to Reception Antennas are any structure, device, or equipment that is similar in size, weight and appearance to Reception Antennas.
2. Transmission antennas mean any antenna, satellite dish, or structure used to transmit radio, television, cellular, or other signals other than reception antennas. Transmission antennas are prohibited.
3. No resident shall install a Reception Antenna on any portion of the common areas and facilities unless the area is a limited common element or exclusive use area granted pursuant to the provisions of the Master Deed creating the Condominium.
4. A Reception Antenna which encroaches on the air space of another unit owner's exclusive use, limited common area or onto the general common areas does not comply with this Rule and Regulation.
5. For purposes of this Rule, residents shall include owners, tenants, and/or lessees of units in the Condominium Association.
6. If a Reception Antenna is installed in a limited common area as defined in the Master Deed, such installation shall be subject to the following:
  - A. Reception Antenna shall be no larger than necessary for the reception of an acceptable quality signal, provided that under no circumstances shall Reception Antennas for direct broadcast satellite dishes be larger than one meter in diameter.
  - B. Due to safety concerns relating to wind loads and the risk of falling structures, masts, supports, and other structures more than twelve (12) feet must receive the prior written approval of the Board. The owner must submit an application including detailed drawings of the structure and methods of anchorage.
  - C. Reception Antennas must be placed in areas that are shielded from view from outside the project or from other units to the extent possible; provided that nothing in this Rule shall require a Reception Antenna to be placed where it precludes reception of an acceptable quality signal unless no acceptable reception is available in any exclusive use area. In no event may antennas be installed on roofs, lawns or other common areas. Residents must first attempt to install the antennas within the units. If an acceptable signal is not possible, residents must next attempt to install the antenna on their exclusive use deck, patio, and/or balcony area, preferably below the top level of the deck, patio and/or balcony railing, as a second choice. All cable entry into the building shall be through the floor joists or headers below the floor line and into the basement. Weather tight cable entry systems shall be used. There will be no penetration of common elements for the purpose of attaching mounting elements or securing wire.

- D. Reception Antennas and similar structures shall not be placed in areas where it blocks fire exits, walkways, ingress or egress from an area, fire lanes, fire hoses, fire extinguishers, safety equipment, electrical panels, or other areas necessary for the safe operation of the project. The purpose of this Rule is to permit evacuation of the units and project and to provide clear access for emergency personnel.
  - E. Reception Antennas and similar structures shall not be placed within two (2) feet of electric power lines and in no event shall they be placed within an area where it can be reached by the play in the electric power lines. The purpose of this Rule is to prevent injury or damage resulting from contact with the power lines.
  - F. If Reception Antennas are allowed to be placed on the building, they must be painted to match, or be compatible with, the color of the building. In addition, the Board may require a resident to install and maintain inexpensive screens or plants to shield the Reception Antenna from view.
  - G. Any resident installing, maintaining, or using a Reception Antenna shall do so in such a way that it does not materially damage the general common elements or the units, void any warranties of the Association or other owners, or impair the water tight integrity of the buildings.
  - H. The residents who own or use the Reception Antenna are responsible for all costs associated with their Reception Antenna including, but not limited to, costs to (1) repair, maintain, remove and replace the Reception Antenna; (2) repair damages to the common elements, the unit, other units, and other property caused by the installation, existence, or use of the Reception Antenna; (3) pay for medical expenses incurred by persons injured by installation, existence, or use of the Reception Antenna; and (4) reimburse residents of the Association for damages caused by the installation, existence, or use of the Reception Antenna. Evidence of insurance of the installation in satisfactory kinds and amounts shall be provided to the Association prior to the commencement of work, naming the Association as an additional named insured.
7. Due to safety concerns relating to the falling of structures, all Reception Antennas shall be securely attached to the building or ground and have guide wires securing the device to the building or ground if said building or ground area is a limited common element. Otherwise, guide wires and the like may not be attached to common areas and facilities.
  8. To the fullest extent permitted by the law, residents shall indemnify and hold harmless the Board, the Board's representatives, consultants, agents, attorneys and employees, unit owners, tenants, guests, and invitees, or any of them, from and against claims, damages, losses and expenses, including, but not limited to, reasonable attorney's fees arising out of or resulting from the installation of any reception antenna contemplated hereunder.
  9. Notwithstanding any provision hereunder, the Board shall report, upon compliance by the resident of this Rule, the installation of any reception antenna to the Master Insurance Policy. Said resident shall thereafter be responsible for any increases in the insurance premiums as a result of any installation contemplated hereunder, and agrees to remit to the Trustees any monies due and owing as a result thereof within thirty (30) days of being assessed the same. Further, notwithstanding the provisions of the Condominium Documents, the cost in excess of available insurance proceeds of repairing or restoring any damage to the common areas and facilities or to any unit which is caused by any work contemplated hereunder by the resident shall be charged solely to the resident.
  10. Residents shall not permit their Reception Antenna to fall into disrepair or to become a safety hazard.
  11. No resident may install more than one (1) antenna or more than one (1) satellite dish.
  12. In the event of a violation of these Rules, the Association may bring an action for declaratory relief with the Federal Communications Commission ("FCC") or any Court having jurisdiction over the matter. If the violation is for any reason, then if the FCC or Court determines that there has been a violation, a fine equivalent to the maximum allowed under the Condominium Documents shall be imposed. Notwithstanding the same, no attorney's fees shall be collected or assessed, and no fines or other penalties shall accrue while a proceeding is pending to determine the validity of any restrictions. The resident shall have a period of twenty-one (21) days in which to comply with any adverse ruling by the FCC or Court, and during such period, neither a fine nor

penalty may be collected, unless the Trustees demonstrate in the above proceeding which resulted in an adverse ruling to the resident, that the resident's claim and the proceeding was frivolous.

13. Transmission Antennas are prohibited.
14. All work must be performed by licensed and insured contractors. Said contractor shall also provide detailed plans and specifications. A copy of said plans and specifications shall be provided to the Association within seven (7) days of completion of the above installation, along with the form attached hereto.
15. The resident is responsible for the immediate removal of the antenna if it must be removed in order for the Association to repair, paint, or maintain the area where it is installed.
16. The Board of Trustees may prohibit the installation of individual antennas when the Association installs a central antenna which provides unit owners and residents with the same service that individuals would request, as long as the signal quality received by the central antenna is at least as good as that received by an individual antenna, and that further, the cost of the central antenna to the individual resident, including the share of installation costs and subscriber's fees is not greater than the cost of the individual antenna installation, maintenance and use, and the requirement to use the central antenna does not unreasonably delay the reception of video programming. In the event that there are individual antennas installed prior to the installation of a central antenna system, the Board shall have the right to require the removal of said individual antenna, so long as the Board compensates the unit owner and/or resident for the installation of the same. Notwithstanding the above, the unit owner and/or resident shall be required to pay to the Board of Trustees a cost determined by the Board to be said unit owner's and/or resident's share of the installation costs and subscribers fees, so long as the same are not greater than the cost of the individual antenna installation, maintenance, and use.
17. If any of these provisions are found to be invalid, the remainder of these Rules shall remain in full force and effect.

**CERTIFICATE OF VOTE AND RESOLUTION OF THE BOARD OF TRUSTEES  
OF THE COURTYARD CONDOMINIUM ASSOCIATION**

~~2008~~ This Certificate of Vote and Resolution is entered into this 27<sup>th</sup> day of March, ~~2007~~.

WHEREAS, Article V, §5.12 and Article V, §5.1.6 of the Declaration of Trust authorizes the Board of Trustees, from time to time, to adopt, amend and rescind Administrative Rules and Regulations governing the details of the operation and use of the common areas and facilities and such restrictions on and requirements respecting the use and maintenance of the units and the use of the common areas and facilities; and

WHEREAS, the original Master Deed, Condominium Trust and By-Laws are recorded with the Middlesex North District Registry of Deeds at Book 5404, Page 311, and Book 5405, Page 001, respectively; and

WHEREAS, the Board of Trustees has adopted a Rule regarding insurance, the substance of which is set forth below.

NOW THEREFORE, the Trustees of the Courtyard Condominium Association, acting pursuant to the authorities contained in Articles III and V of the Declaration of Trust do hereby amend the Administrative Rules and Regulations of the Courtyard Condominium Association as follows:

- 1. The Rules and Regulations of the Courtyard Condominium Association are hereby amended by adding and adopting the following Article:

**INSURANCE RESOLUTION**

We, the undersigned, being a majority of the Board of Trustees of the Courtyard Condominium Association, under a Declaration of Trust recorded as set forth above, do hereby adopt the following policy resolution regarding property insurance claims, repairs, and deductibles:

- 1. Master Insurance Policy: The Condominium Association shall maintain insurance as

the Condominium Trust's Master Policy deductible:

- A. Identifying Master Policy Claims: When a unit owner reports damage, a note will be made to the file. The damage will be inspected to assess the approximate cost of the damage. The unit owner shall notify their own insurance agent or carrier. The unit owner is responsible for the Condominium Master Policy deductible for items not covered by the Master Policy and is also responsible for all damage to the unit, personal property, improvements, rent loss, etc., not covered by the Master Policy. If the damage to areas covered by the Master Policy is less than the deductible, then the Condominium does not get involved with the process and the unit owner must resolve the claim with their individual insurance agent or carrier.
- B. Processing a Master Policy Claim: The following is the process for filing a claim against the Master Policy:
- (i) Damage in excess of \$10,000.00 must be reported within seventy-two (72) hours to the Management Agent. Failure to report claims promptly may result in the claim being denied by the Insurance Carrier. The Trust will not honor claims that are denied by the Carrier because of failure to report in a prompt fashion. Unit Owners should also notify their Insurance Carrier at the same time.
  - (ii) The Management Agent will notify the Trust's Insurance Agent of the loss. Should immediate repairs need to be made in order to insure the safety of unit occupants the Management Agent will secure approval for these repairs from the Insurance Carrier.
  - (iii) The Management Agent will instruct the unit owner to secure bids to repair the damage. These bids are to be submitted to the Management Agent with a cover sheet itemizing the costs and totaling the same. This sheet must contain the unit owner's signature. If the damage is less than the Master Policy deductible, the unit owner need not submit anything further and should deal with their insurance agent or carrier.
  - (iv) During the bidding and damage assessment process, the Unit Owner must work closely with the Management Agent and the Master Policy Insurance Adjuster in order that the scope of work is agreed upon by all parties prior to the commencement of said restoration work. This includes, but is not limited to, making the unit available for inspection, securing additional bids should the Insurance Adjuster request it, and promptly responding to requests made by the Insurance Adjuster and/or Management Agent. The Trust will not be responsible for the timeliness of insurance claims being paid. If a

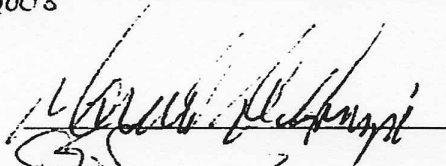

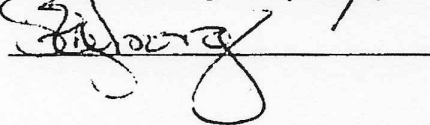

claim payment is delayed, no interest, penalties or other claims will be honored.

- (v) In the event there is a dispute, the final approval of settlement costs is with the Insurance Company and the unit owner must abide by its decision.
- (vi) Once it is agreed by all parties what the scope and amount of the claim will be, the unit owner will be given permission to commence the restoration work. Unit owners may ask that the Trust request payment of the claim in order that the unit owner has funds to initiate restoration work. If the Insurance Carrier forwards this amount to the Trust, then the Trust may pass the benefit of this early payment to the unit owner. The Trust will never release funds to a unit owner prior to the signing of a release by the unit owner.
- (vii) Final payment will be made when:
  - (a) The Insurance Adjuster has had the opportunity to inspect all repair work.
  - (b) The Trust has received the final payment from the insurance carrier.
  - (c) The unit owner has signed a release.
- (viii) The Trust shall have no obligation or responsibility to perform or cause to be performed repairs within an individual unit.

12. Notwithstanding the above, the Board of Trustees reserves the right to utilize all insurance funds, as well as any other funds which are required to be paid by the unit owner to undertake any and all work needed to the common areas and/or units. The Board shall not be obligated to undertake any said work in the unit until the unit owner makes the payment of any amounts due hereunder.

IN WITNESS WHEREOF the Board of Trustees has executed this instrument under seal this 27<sup>th</sup> day of March, 2007. 2008
